SUMMER ISSUE  
JULY 1964

# Postgrad

The Grande Salle of Place des Arts was filled with relatives and friends as 623 Sir George Williams University graduates received their diplomas. The class was the largest since its inception.  
(for story, see page 12)

'64 GRAD CLASS GETS REPLICA CAKE

Mrs. H. F. Hall, wife of Dr. Hall, Principal emeritus and President Nick Grycan cut the cake which was presented to the '64 Grad Class. The cake is a replica of the Henry F. Hall building which is expected to be ready for occupancy by Sept. 1966. Occasion—Grad '64 Banquet and Ball.

## **smaller world, isn't it?**

And growing smaller with every breakthrough in communications! As space is mastered...capitals converge...frontiers draw together...far-off shores move in just a little closer.

The nearer Valparaiso is drawn to Vancouver, the greater its attraction for the Canadian businessman. That's why, in a world grown smaller, the Bank of Montreal had to grow a little larger. To serve the Canadian businessman, we have blanketed Canada with over 925 branches. We maintain offices in the United States, Great Britain, France, Germany, Mexico and Japan...through an affiliate, Bank of London & Montreal, Limited, we offer a network of offices throughout the Caribbean area...and banking correspondents in every civilized country complete our global span.

Anywhere you name, we can serve you through our International Organization. Try us—you'll find there's nothing small about the comprehensive services made available to you.

**BANK OF MONTREAL**

COMPLEX—Close-up of a crossbar switching frame, one of thousands made annually by Northern Electric for Canadian telephone companies.

# Behind every telephone...

You're looking at just one section of a typical unit of telephone switching equipment. Yet in this single view, showing bundles of voice-connecting wires running in predetermined paths like the vital nerves they are, you get an idea of the complexity of the system behind every telephone.

The units Northern Electric craftsmen assemble—each involving as many as 3,000 wires

and 20,000 switching points—must work compatibly with those already in service. And they must work swiftly, surely, accurately...time and time again 24 hours a day for many years. Such performance is as-

sured by the competence of Northern Electric's research and development laboratories in Ottawa, and manufacturing establishments in Montreal, Lachine, Toronto, Belleville and London.

## Bank of Commerce offers a special long-term **EDUCATION LOAN**

The reason so many people are denied higher education is quite often a financial one. We at the Bank of Commerce realize that the cost of attending University has increased sharply over the past few years...

### **THUS WE ARE PLEASED TO OFFER THE BANK OF COMMERCE EDUCATION LOAN**

This plan allows you to borrow an amount up to 80% of the four basic educational expenses—tuition, books, room and board and travel. When students take long courses, the total loan amount may be as high as \$8,000. Repayments are arranged through a flexible system of low monthly instalments of principal and interest. The period of

repayment may extend up to two years longer than the length of the course. Some repayment periods may be as long as eight years.

This Bank of Commerce Education Loan Plan is designed to help you help your child's future.

### **FREE BOOKLET**

For information about the plan, call in at your nearest Commerce branch for the free booklet "Education Loan Plan" or write to 25 King Street West, Toronto 1, Ontario.

**CANADIAN IMPERIAL  
BANK OF COMMERCE**

*Over 1260 branches to serve you*

## NOTES FROM THE EXECUTIVE DIRECTOR'S OFFICE

MORTY CONSTANTINE, B.A., B. Com. '57, now practising Law in Montreal. Morty was Vice-President of the S.U.S. He married MARIANNE WELLISCH, B.A. '61. They now have a baby daughter, Natalie. Thanks for your work on the Campaign Marianne and our best to you both.

PAUL R. ADAMS, B.A. '62, has accepted a newly established position with the University of Alberta, Calgary, as Advisor to Men Students and Administrator of Student Awards. Congrats and good wishes Paul.

Congratulations to NORMAN MANSON, B.A. '37. Norman is with the S.G.W. Business School and has been appointed Canadian Associate Member — Institute for Certifying Secretaries, National Secretaries Association. He will be attending its annual convention in Kansas City, Mo., in September. Norman was recently the main speaker at a recent Long-Service Recognition dinner given by the University.

Very best wishes to BOB VAISON, B. Com. '63, and JEAN ELIZABETH COTTINGHAM. They were married in May and will reside in Ottawa, Ont.

To RODY WATT, B.Com. '55, and wife Barbara, a daughter on June 1st — sister for Jaime and Susan. Rody and Barbara, our very best.

A special vote of thanks to DAVID A. PEARCE, B.Sc. '52. David is living in Mission, Kansas.

Congratulations to Dr. "JOE" J. P. ZWEIG, B.Sc.(Com.) '44 and B.Sc. '44, better known to many students and alumni as Prof. Zweig. Joe recently received his Ph.D. in Psychology from Teachers College, Columbia University.

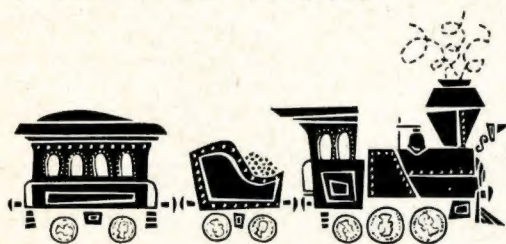

Members of the Class of '44 may recall his efforts in convincing them to purchase a rare set of the works of Thomas Haliburton as their graduating class gift. This set still adorns the Canadiana collection of the S.G.W.U. library. He was also instrumental in helping to introduce an effective reading program at the University and in

training a number of early instructors in its presentation.

Joe was a part-time member of the faculty until 1949 and has been on the full-time staff since then. He has taught in several departments and was also Secretary of the Social Sciences Division in 1961-63, the first such appointment. He was among the group who were honoured recently by the University in recognition of twenty or more years of service. In addition to teaching at 'Sir George', Joe has also lectured at McGill. He took his M.A. in Psychology at McGill in 1952. For 12 years he was part-time Principal of the English Dept. of the Rabbinical College of Canada. He is a past president of the S.G.W. Association of University Teachers; has served as Faculty Representative on the Athletic Council; and is presently its Representative on the Alumni Loan Fund. Joe we were delighted to hear about your Doctorate.

## EDITORIAL

### A Wider Door to Opportunity

Statisticians throughout the world are flashing all sorts of warning signals of an imminent population explosion. In fact, the University population explosion is only a year or two away. What are you and I, alumni of Sir George Williams University, doing about it? Are we content to simply pay our tax dollar and hope that our Alma Mater will receive sufficient finances from that source to meet all its normal growth requirements?

"The primary aim of the (Sir George Williams) University is that students shall grow in character and personality as well as in those techniques and appreciations which may be required in full and satisfactory living."

You and I, as graduates of Sir George, have a vital role to play in the physical growth of this institution of higher learning. The Capital Funds Campaign for the Henry F. Hall Building must receive exemplary support from the Alumni Association. We have had the opportunity to observe at first hand our Alma Mater's successful achievement of its primary aim and our whole hearted support of its physical growth will declare to the community at large in a loud voice that it should support the project generously.

The generosity of the Provincial Government and other formal sources is greatly appreciated but it must be realized that only the basic or fundamental requirements are provided. Our contribution, and that of other public donors, must provide the funds that will raise Sir George Williams University from an institution which is equipped to meet only

basic requirements to one which achieves its aims with some degree of excellence.

You and I must have the courage to admit that someone before us provided a University which became our door to opportunity. We must be prepared to realize that we have lived through an expanding population since 1928 when the doors of our University first opened. We must be equally prepared to widen the door of opportunity so that the ever increasing number of students in the immediate years ahead will also have opportunity to grow in "character and personality". There is no better insurance that one can buy than to invest in the leaders of tomorrow-today.

Support the Capital Funds Campaign now.

N. J. Grycan,  
President, SGWU  
Association of Alumni.

### NOTES (Continued from page 5)

IVAN LANTOS, B.Sc. '60, dropped in recently to say hello. Ivan is now at McGill working towards his Ph.D. in Chemistry. He is also active in our Building Campaign. Our thanks, Ivan.

Delighted to hear from R. T. (DICK) GERMANEY, B.A. '44, M.Sc. Ed., Springfield. Dick has just been appointed Principal of Beaconsfield High School. He was President of the Grad Class of his year and a winner of the coveted Guinea Pig Award. At present he is Chairman for the Hudson area of the Alumni Division of the Building Fund. Congrats and best wishes Dick.

Had a brief stopover in Toronto recently and was very pleased to have a short

session with HUGH F. COOKE, B.A. '51. Thanks Hugh.

Our apologies to MILTON POGSON, B.Sc. '53. He is Industrial Relations Manager for Sperry Gyroscope Co. of Canada Ltd., not as previously stated in the last issue.

Congratulations to H. S. "STU" McEVOY, B.Com. '57, and PETER PITSILADIS, B.Com. '58. Both were graduated recently from the U. of W.O. with M.B.A.'s.

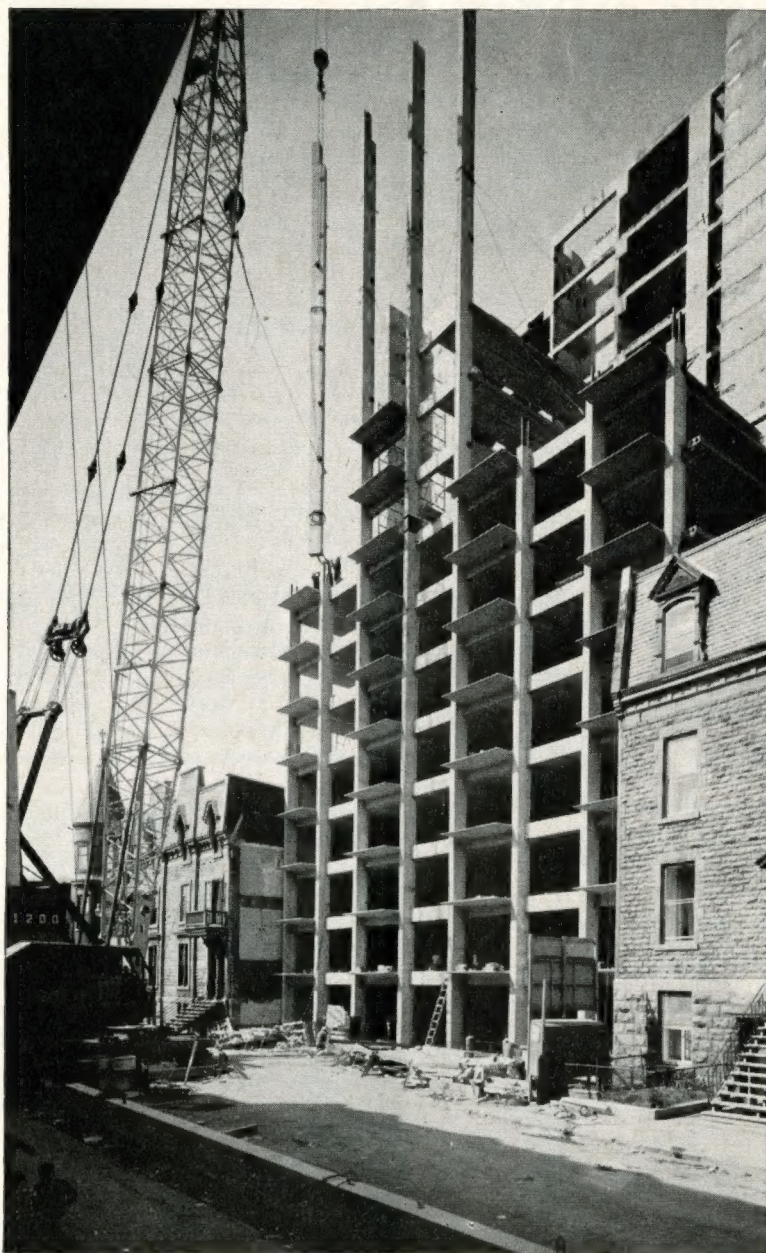

Best wishes to HELENE DU BOIS and PAUL J. DESLAURIERS, B.A. '62, whose marriage took place late in May.

GERARD S. SEGUIN, B.Com. '63, Controller for La Patrie, and a good worker for the Campaign, and his wife

# NEW APARTMENT BUILDING IN MONTREAL TALLEST PRECAST CONCRETE BUILDING ON THIS CONTINENT!

The construction of Sussex House, the tallest all-precast concrete building in North America, is nearing completion in Montreal. The fifteen storey, 112 suite apartment building is built entirely of precast or prestressed concrete elements which were prefabricated at Francon Limited's plant, shipped to the construction site and hoisted into position by a giant 125 ton crane. Columns, beams, floor slabs, elevator shaft, staircases, chimney and refuse collector shaft and even the swimming pool on the roof of the building are all of precast or prestressed concrete construction.

This is another example of the successful framing techniques being developed through the use of precast and prestressed concrete.

The building which was constructed for Peter Vida Inc. was designed by Fish, Melamed, Croft and Grainger, Architects. The Consulting Structural Engineers are Blauer, Horvath, Taylor, Associates. The General Contractor for the project is M. J. L. Construction Company Limited. Francon Limited designed, fabricated and erected the structural parts of the building.

HEAD OFFICE: CANADA CEMENT BUILDING, PHILLIPS SQUARE, MONTREAL

## NOTES (Continued from page 6)

Lise, recently became proud parents of a daughter Louise, sister to Diane who is now four. Our very best Gerard and Lise. I'll be expecting a cigar at the next report meeting.

Heard through TED LANDE, our Alumni Campaign Chairman, that a recently lost grad, DONALD J. C. STEEN, B.Com. '59, and his wife Ruth, née McConnell, B.A. '60 have returned to the fold with a cheque towards the building fund. Very happy to have you back and thanks.

Just heard that MONICA DOMBROWSKI, B.A. '60, is now Mrs. Von Kursell and is living in Wawa, Ont. with her husband. Monica was a member of the 25th Anniversary Reunion Committee. Our best to you Monica.

The Ottawa Chapter of the Association held its first annual meeting on April 18th. Guest speaker, Principal ROBERT C. RAE, spoke to the meeting on the future building program. Officers elected were: H. VERDIER, President; JOHN MILLONS, Vice-President, VALERIE SIMS, Secretary; DAVID BROWN, Member-

ship Chairman; KENNETH SCHINDLER, Programme Chairman and WM. DODGE, Treasurer. Other members present included: BILL HAVERCROFT, B.Sc. '49; DANA COCHRANE, B.A. '62; ED LOMAS, B.Sc. '46; THURMAN A. TUPPER, B.Com. '41; STANLEY KNIGHTS, B.Sc. '42, who is also our Campaign Chairman for Ottawa; and ERIC NORMAN, B.Sc. '51.

Best wishes to MISS ROSANNE KANTOR and HASCAL ALLAN ROSEN, B.Com. '56. They'll be walking down the aisle in June. Rosanne is an evening student in the Faculty of Arts.

BRIAN H. RONALDSON, B.Sc. '62. Assistant Sales Specialist, Northern Electric, is the proud father of a baby daughter Sharon. Congrats Brian. Glad to have you back on the list.

IRENE PAULSON, B.A. '59, M.S.W., McGill, is with the City of Hope Medical Center in Duarte, California. Best wishes.

Congrats to our good friend JACQUES BELANGER, Manager of the Aeroport Hilton Hotel. Jacques is engaged to marry MISS MARILYN GRAHAM of N.D.G. in August.

Very happy to find HAZEL WAINBERG, B.A. '60, M.S.W. She is now MRS. A. LIPES and has been since September '62.

A very interesting letter from JACK LATHEY (now F/L Lathey), B.Sc. '57. Jack recently completed a 21 month graduate guidance and control course at the United States Air Force Institute of Technology at Wright Patterson Air Force Base, Dayton, Ohio, and received an M.Sc. degree in Electrical Engineering.

Since graduation he has been on exchange duty with U.S.A.F. First on the Dyna Soar (X-20) program as a project engineer in the inertial guidance group; then, with the cancellation of the X-20, he was reassigned to the U.S.A.F. Flight Control Division at Wright Patterson A.F.B. At present he is working as a project engineer on satellite stabilization studies. Thanks for the letter Jack and our very best.

Thanks for the letter, BERNARD BLOOM, B.A. '62. Bernard is at the U. of Alberta, Edmonton, working towards an M.A. in Political Science. At the date of

# ANNUAL REPORT 1963-64 OF THE ASSOCIATION OF ALUMNI

## EXCERPTS FROM PRESIDENT'S STATEMENT

BY N. J. GRYCAN

During the past year your Association, under the leadership of its Board of Directors, has endeavoured to lend more and more effective assistance to our Alma Mater — Sir George. The public campaign for some \$7,000,000 to help construct the Henry F. Hall Building became a reality and I am proud to state that your Association has undertaken to raise a substantial amount, our goal is \$150,000 over a 5 year period, towards the total cost of this magnificent addition to the physical facilities of our University. Of course this is not the first undertaking by our Association to raise funds of a capital nature for Sir George but certainly it is the most ambitious and significant. Realization of our goal is possible but certainly not without a serious effort on the part of many alumni and generosity of us all.

The most encouraging result of this undertaking, apart from the important monetary aspect, is that some 400 members are actively involved in the campaign. I take this opportunity to congratulate Mr. Ted Lande, the Chairman for organizing such a large working force. Not only will the monetary results be of value to Sir George but our Association should also reap benefits for years to come in its continuous efforts to be of service to our University.

Naturally, the Association of Alumni was pleased at the announcement that the new building will be known as the Henry F. Hall Building and that the present University building on Drummond Street will be known as the Kenneth E. Norris Building.

On your behalf, I wish to extend a hearty vote of thanks to Morrie Gold, Chairman of the K. E. Norris Memorial Lectures, for an outstanding series under Dr. Otto Klineberg. The series was expanded from 1 to 3 nights and was extremely well attended by members of the Sir George family.

Our sincere thanks are certainly overdue to Stan Asher, Editor of *Postgrad*, who has continued to improve the publication under less than ideal conditions. The Executive Committee and the Board are actively concerned in improving the publication. All of us appreciate, without a doubt, the column from the Executive Director's office.

I hopefully and happily report that there is a growing awareness among our membership that the Association of

Alumni must undertake an increasingly more effective role in the University's affairs. While we are most grateful to the Provincial Government and other agencies for their generous financial support to Sir George, we must strive continuously to maintain for our Alma Mater a full measure of freedom to choose its curriculum and apply its philosophy to its serious task of education. We, the graduates, know the advantages that accrue from such an unfettered institution of higher learning and we must not be apathetic in the face of any force which tends to lessen or disrupt these freedoms now enjoyed by Sir George.

On your behalf, I wish to thank the members of the Board of Directors who have actively served our Association throughout the past year. For some the Constitutional limitations will end a number of years of service in this capacity and it is our sincere hope that they will continue to support our work by active participation on standing and special committees in the days ahead.

Also on your behalf I wish to thank the

Board of Governors, the Principal, his staff and faculty for the cordial and friendly manner in which they have helped us in our efforts to be of service. Finally, we are all grateful to our Executive Director, John Ferguson, for the constantly cheerful and optimistic manner in which he has carried out the responsibilities of his office. The door to his office is always open to graduates, undergraduates, faculty and staff.

If you and I are courageous enough to admit, and remember, that Sir George Williams University was our "door to opportunity" then our Association of Alumni will be successful in attaining important goals in the days ahead. I wish for each Alumni member an increasing measure of courage.

### ADMISSION TO SGWU

Sir George Williams University has announced a new policy for university entrance. Applicants must now take a battery of tests designed to cover the areas of academic potential; educational and vocational interests; personal adjustment; vocabulary and reading comprehension skills; study habits and attitudes. Students will pay a \$25 application fee which is refunded if the applicant is not accepted, or applied to the tuition fee if successful. Applications which reveal favourable test results will be placed in a pending file to await results of the high school matriculation examinations. One result of such testing, university authorities hope, will be that students with emotional difficulties, serious study problems, *et al*, will be able to benefit from counselling prior to university entrance thereby reducing the first-year casualty rate.

### FIRST HONORARY LIFE MEMBERSHIPS

At the annual meeting of the Association of Alumni, held on June 11, 1964, the following were presented with life membership Certificates — *Minifred Laberge, Muriel Rexford, Mrs. Ruth Gencer, Mr. Hugh, C. B. Nourse, Mr. Albert E. Mount, and Mr. C. Robert Halford*, who received these memberships on having reached the age of 65. This innovation of the Alumni Association will, it is hoped, set a worthy precedent.

writing he said he was freezing to death. Trust that you have thawed out by now Bernard. In case I forgot to tell you, ERNIE GILMAN, B.A. '63, lives at 4975 Maplewood, Apt. 3, Montreal, Que.

Two or three most interesting letters from MRS. DORIS BRIDGMAN (née Ryall), B.A. '59. Doris is working in the Library of the U. of Pennsylvania and is also our Campaign Chairman for that area. Thank you Doris and best wishes.

Heard from the University of Akron that HARRY BAIKOWITZ, B.Sc. '60, has just been granted an M.Sc. Congratulations.

New Board members elected at the last Annual Meeting were MAURICE LANGELIER, B.Com. '48, and VICTOR YATES, B.A. '52. Also congrats to VIC & MAUREEN on the birth of a son. Kevin John, brother to Carol-Ann. Leaving the Board after several years of service and with our thanks are FRANK STANNARD, B.Sc. '45, who was also our Representative to the Board of Governors, and MAURICE GOLD, B.Com. '50, B.A. '51, who is still Chairman of the K. E. Norris Memorial Lectures.

Bumped into MARG CARR, B.A. '57, recently. She is teaching at Malcolm

Campbell High School in St. Laurent and driving a very sporty convertible. Happy to see you Marg.

To the HON. BILL HAMILTON, B.Sc. '43, of Park and Tilford, Chairman of the Alumni Division of the Campaign for B.C. — Sorry I can't make the meeting of the Vancouver group at which time you'll produce your E.B.C., or mixture, but thanks and cheers anyway.

JEAN DES ROSIERS, B.Com. '50, C.A., Associate Chairman, Building Fund, now travelling around North Africa and Southern Europe. SANTO ARCORAGI, B.A. '47, B.Com. '48, is acting Associate Chairman and doing a fine job. Thank you Santo.

Bumped into BILL BUTTARS, B.Com. '63. Bill was the winner of the Charles E. Frosst Medal upon graduation and is now Sales Representative, Data Processing Division of I.B.M. Good luck Bill.

See by the paper that JUDITH SUSAN DAVIES, B.A. '64, will soon be wed to ROBERT M. HOLLETT — our best to you both.

Our congratulations and best wishes to GLORIA ANNA STIEGER, B.A. '64, winner of the Association of Alumni Award.

Several Georgians were graduated from McGill U. at the Spring '64 Convocation. To them our congratulations and best wishes:—

Bachelor of Library Science — Miss TIU MAI JAANSOO-JOE, B.A. '63.

Bachelor of Civil Law — HARVEY FRUMKIN, B.A. '60; STANLEY CYTRYNBAUM, B.A. '56.

Diploma in Management and Business Administration — JOHN V. SCOTT, B.Com. '58; ALLAN F. TAYLOR, B.Sc. '54.

Master of Science (Applied) — LESLIE G. BILDFELL, B.A. '61, (Psychology); KENNETH BRIAN COCKHILL, B.A. '56, (Psychology); EVA KEERI-SZANTO, B.A. '62, (Psychology); ETHEL RUTH RADBILL, B.A. '62, (Psychology).

Master of Science — JOHN H. FOSTER, B.Sc. '58, (Mining Engineering and Applied Geophysics); BONNY LOUISE HAMRICK, B.Sc. '62, (Anatomy); GABOR VALI, B.Sc. '61, (Physics).

Master of Arts — WILMA MONICA AUGUSTIN, B.A. '61, (Economics); LYNN LUBIN GOLD, B.A. '62, (English).

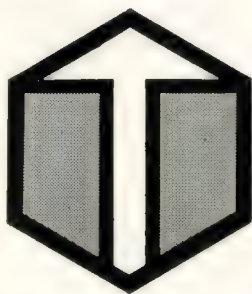

We know that many more Georgians had done postgraduate studies and have

OFFICES ACROSS CANADA

# 623 SGWU GRADUATES HONORED IN GLITTERING CONCERT HALL

## STAY IN CANADA, JOHN FISHER URGES CLASS

(for photos, see cover)

Centennial Commissioner John Fisher told graduating students of Sir George Williams University that they should remain in Canada and make the best use of existing opportunities.

"Cock your ears to the wind and you will find enough stirring in this land to keep you busy," he told the 623 graduates who together with relatives and friends filled the Grande Salle of Place des Arts.

The graduating class was the largest since its inception and it was the first time the modern concert hall was being used for an academic convocation.

The academic procession, which was divided into two parts, assembled outside. It filed across the stage from the right wing and into the audience where the graduating class occupied the front rows while the faculty, university officials and other dignitaries remained on stage.

Mr. Fisher told the gathering that it was a "privilege" to be living in Canada today "no matter our stresses and strains."

He said he was frightened by a recent magazine report that 29 per cent of Canadians would favor an alliance with the United States.

"I often wonder what other nations must think of us," he declared, "what do they think when they hear talk of Canada breaking apart, of many Canadians who yearn for the citizenship of another land?"

He said the major problems facing Canada were separatism, foreign ownership of resources and production and "the spineless response of the little Canadians who want to desert her and join another country."

"The greatest single challenge facing Canadians," the Centennial commissioner said, "is that of living and building to-

gether a multicultural society in a shifting world. Not only must we acquire the wisdom and strength to tolerate differences but to make them viable, to enjoy them and to go forward to a more meaningful life."

He told the graduates that all frontiers of challenge were not abroad and "on our own doorstep is a new frontier of human communication—the task of selling a nation to itself."

Four students received diplomas of Associate in Science, 10 diplomas of Associate in Arts, 154 Bachelors of Commerce degrees, 114 Bachelor of Science degrees, 319 Bachelor of Arts degrees, 12 Certificates in Engineering and 10 Diplomas in Association Science.

*Following the convocation, reception for grads, family and friends was tendered by the Alumni Association.*

---

## JEWISH COMMUNITY OF MONTREAL AIDS SGWU BUILDING CAMPAIGN

(from the Canadian Jewish Chronicle)

Sir George Williams University Building Fund Campaign to raise seven million dollars is underway with a Special Division Committee, headed by Joe Caplan and including as control Chairmen Allan Bronfman, Gordon Brown, Melvin Chorney, Jack Cummings, William Gittes, Tom Hecht, Moe Levitt, Jacob Lowy, Arthur Pascal, Myer Pollock, Jack Reitman, Joe Rubin, Arthur Rudnikoff and Sam Steinberg with Mathew Ram assisting in co-ordinating the cards.

The Jewish Community will be able to play its proper part.

Mr. Joe Caplan in a letter to those being canvassed, stated: "It is extremely interesting to know that of the student body of ten thousand and over attending Sir

George Williams University more than 21 per cent are from our community."

"This remarkable attendance indicates how important a part this University is playing in the educational lives of our families and I am certain you will be only too pleased to join with me in helping safeguard this wonderful all-year-round teaching University."

Mr. Samuel Bronfman tendered a dinner on behalf of the campaign at the Windsor Hotel on Monday, June 15, 1964.

In addition to being chairman of this division, it is to be noted that Mr. Caplan has been named to the advance gifts division of the campaign itself as well as Messrs. S. Bronfman, T. Hecht and T. Lande.

## PAPERBACK PREVIEW

By Stanley Asher

THE VILLAGE VOICE READER (Black Cat, 95¢), is an anthology of articles, poems, reviews, and Jules Feiffer cartoons from the influential New York newspaper . . . A HISTORY OF EDUCATION IN ANTIQUITY (Mentor, 95¢) by H. I. Marrou, traces the development of Western ideas of schools and scholarship through the Greek Periclean Age . . . A DICTIONARY OF MODERN HISTORY, 1789-1945 (Penguin, \$1.25) by A. W. Palmer, is a handy reference guide to people, places, and events of the period indicated—particularly useful for students . . . CRISIS IN ENGLISH POETRY 1880-1940 (Grey Arrow, \$1.25) by V. De Sola Pinto, traces the trends and lack of trends through such diverse writers as Yeats, Hopkins, and Eliot. The author was Professor of English in the University of Nottingham . . .

### LE PRIX VILLARD

pour récompenser l'étudiant qui s'est intéressé et distingué dans l'étude de la langue et de la littérature françaises.

Lily Felberg

*(Continued on page 19, column 1)*

DR. MORTIMER MARTIN TUNIS, a distinguished graduate of the University, died in May 1964. Dr. Tunis was well known and highly regarded by the generation of Georgians who knew him well. He had a wide range of interests and his devotion to research was manifest even as an undergraduate. In the small but excellent annual published by the Class of 1943, two well written articles by Mortimer Tunis demonstrate his versatility. One is about the summer camp of the basic training corps and the other on the new biology laboratory.

Mortimer Tunis graduated with the degree of Bachelor of Science with the wartime class of 1943. The total class in the three faculties that year comprised forty-five people of whom only fourteen graduated in science. They were, however, a remarkable group and included among others W. M. Hamilton, who was later to become Postmaster General of Canada. It is of interest to note that among the leading prizes that year was the Dean's Prize in Natural Science, "For the most satisfactory work in the natural sciences." This was replaced two years later by the Mappin Medal. It was awarded in 1943 jointly to M. M. Tunis and S. Madras, now Dean of Science at the University.

Upon graduation from Sir George,

Mortimer Tunis was admitted to the Faculty of Medicine at McGill University where his inquiring mind and his exceptional devotion to hard work found full expression. He graduated with the M.D.C.M. degree in 1947. His research ability was recognized by two fellowships. These were a Commonwealth research fellowship at the New York Hospital and a Canadian Life Insurance Association fellowship at the Royal Victoria Hospital. In this connection, Dr. Tunis wrote and published many technical papers and articles. His field of work was largely concerned with head pains and related subjects. He was granted a Diploma in Internal Medicine by McGill University. In his death at the prime of his busy and constructive life two universities lose a promising alumnus and the medical profession a devoted and skilled practitioner. His many friends, however, will realize that his life was not in vain as he set an example to all who knew him. He combined scientific discipline with a warm humanity to an unusual degree.

The wife of the late Dr. Tunis is also a well known Georgian. As Miss Ruth Blauer she graduated from the University with a Bachelor of Science degree in 1946. To her the Alumni and the whole University community extend sincere sympathy.

# SUMMER SESSION IN SOCIOLOGY SLATED

## A FIRST FOR SIR GEORGE

A high-powered daytime sociology school will be held this summer at Sir George Williams University.

Four of the world's leading sociologists will lecture at the precedent-setting project.

Though the courses will be at an undergraduate level, respect for the lecturers is so high that more than 80 per cent of the students attending from other universities and centres will be graduate students of whom at least three are professional sociologists with PhD's and one a United Church minister from Guelph, Ont.

The provincial education department has given its blessing to the undertaking by establishing a scholarship fund through its student aid service.

When the school opens July 13, it will mark the first time that day classes have been held during the summer since Sir George was established. The university had its beginnings as a night school and began regular day classes through autumn, winter and spring, in 1932.

### *"One-shot" Idea*

The idea to hold the special "one-shot" summer session came, quite naturally, out of the university's sociology department, chaired by Prof. Harold Potter. Other members of the department are, Prof. Kurt Jonassohn and Prof. Hubert Guindon.

Prof. Jonassohn said "we are, of course, always trying to find ways of raising standards and increasing mental stimulation. So, when we were considering the fact that the annual meeting of the American Sociological Association will be held in Montreal from Aug. 30 to Sept. 4, we decided to exploit it."

Prof. Guindon said applicants for the courses (there will be three full and two half courses) have been carefully screened to prevent space being filled by persons seeking "just another credit toward completing a degree. We are concerned with making this a milestone for the university in quality of education and from the way it looks now, it should be just that."

### *Courses Listed*

Following are the courses and some of the qualifications of the visiting professors.

Sociological Theory (Sociology 424) is a full course that will be taught by Lewis A. Coser, PhD, of Brandeis University. Dr. Coser studied at the Sorbonne, Columbia University, and Harvard. He has taught at the universities of Chicago and California and was a Fulbright Senior Research Scholar at Oslo in 1961. He is the author of *The Functions of Social Conflict*; *The American Communist Party, A Critical History* (with Irving Howe); and *Sociological Theory* (with Bernard Rosenberg).

Medical Sociology (Sociology 431), full course that will be taught by Rose Laub Coser, PhD, a graduate of Columbia University who is research associate in psychiatry at the Harvard Medical School and lecturer in sociological theory at Boston University. She is author of *Life in the Ward* and is presently working on a publication: *The Family, Structure and Function*.

Religious Institutions (Sociology 432) also a full course, will be taught by Joseph H. Fichter, SJ, PhD of Loyola University of the South. Father Fichter is the author of 11 books and has taught in Spain, West Germany, and Chile. His latest book,

*Parochial School: A Sociological Study*, won the 1959 Research Award of the American Catholic Sociological Society.

American Minorities (Sociology 445) and Race Relations (Sociology 446) are two half courses that will be taught by Robin M Williams Jr. PhD, of Cornell University. Dr. Williams is a graduate of Harvard. He served as Fulbright lecturer at the University of Oslo in 1954-55, and has taught for briefer periods at the universities of Hawaii, Southern California, Wisconsin, Oregon, and North Carolina. He is past president of the American Sociological Association, and has written *The Reduction of Intergroup Tensions*; *American Society*; and *Strangers Next Door*.

*(Carl Dow—from the Montreal Star)*

## SGWU GROUP SEEKS TIES WITH TOKYO UNIVERSITY

The economics department at Sir George Williams University hopes to establish a close relationship with its counterpart at the University of Tokyo.

Professor Arthur Lerner, SGWU's economics department chairman, said students and faculty could benefit a great deal from the association.

"Japan is often cited to our students as an example of rapid economic growth in a different economy and we would like the students and the faculty of Sir George Williams to get to know the people, the country and the different problems better" he said.

Areas of exchange will include correspondence between staff and students, exchange of research topics, projects, papers and books.

# PRINCIPAL'S ANNUAL REPORT

## TO THE MEMBERS OF THE ASSOCIATION OF ALUMNI :

Once again I am grateful for this opportunity to extend the greetings of the University to all members of the Association of Alumni. The many fine services of the Association during the 1963-64 academic year have been deeply appreciated and congratulations are offered for the able and efficient manner in which all events have been conducted.

There have been many important happenings at Sir George during this academic year which actually draws to a close with the Spring Convocation at Place des Arts. Foremost of these, with regard to public attention, has been the commencement of construction work for the Henry F. Hall Building of Burnside Street and the launching of the Sir George Williams University Building Fund Campaign. However, we have been making major gains in our academic work as well with the addition of many more competent members to the faculty, the extension of our curricular programme and the announcement of our plans for graduate work, extension of research activity and the eventual establishment of institutes of advanced study.

---

## 1963-64 IN REVIEW—ALUMNI ROUNDUP

The opening event of the year was the 1st, to our knowledge, Fashion Show presented by the Alumni Association. The purpose was to draw graduates together and to raise some money for the Association. In both cases, we were reasonably successful with an attendance of over 300. Mrs. Ruth Tunis, and her committee are to be commended for a well organized and successful affair.

### HONORARY LIFE

#### MEMBERSHIP BANQUET :

On Wednesday, May 15th, 1963, the Association held its 2nd Honorary Life Membership Banquet. There were over 150 in attendance and Honorary Life Memberships were granted to John Burr Frosst, Ph.G.; J. Harmon Andrews, M.M.; Professor Douglass Burns Clarke, M.A.; Dr. J. W. Bridges, Professor Emeritus, and Lt. Col. S. C. Holland, C.D.

Space does not permit the background story of these five gentlemen, but it can be found in the Spring '63 issue of the "Postgrad".

### LIBRARY CAMPAIGN:

The balance of all monies collected by the Association for the Library campaign was turned over to the University early in the year. An additional \$500.00 was granted to the University towards the purchase of a rare set of early Canadian Maps, a collection which adds greatly to the University's collection of Canadiana, and will be of benefit to scholars and faculty for years to come.

### GRAD RECEPTIONS:

Following well established tradition, the Association sponsored the Spring & Fall Graduate Receptions — this year two Spring Receptions, because of the change of the fiscal year date. For the first time, the Fall Reception was held at the Windsor Hotel with over 700 people in attendance, probably one of the biggest, if not best, Fall Receptions to date. Total attendance at all Receptions was about 6900.

### K. E. NORRIS MEMORIAL LECTURES:

The third Annual K. E. Norris Memorial Lecture series was held on February 3rd, 4th and 5th at the Salvation Army Citadel on Drummond Street. The Speaker was Dr. Otto Klineberg, B.A., M.A., M.D., Ph.D.; Professor of Social Psychology, University of Paris, Sorbonne; Professor Emeritus, Columbia University.

Dr. Klineberg is the author of many books and publications among which are "Race Differences", 1935; "Social Psychology", 1940 & 1954; "Tensions Affecting International Understanding", 1950, and "Race and Psychology, UNESCO", 1951.

His topic was "The Human Factor in International Relations". Attendance was very good with an average of 700 each evening.

The University Community is grateful to Mr. Maurice Gold, Chairman of the series and his committee for a job very well done.

### CHAPTERS:

Mr. Henry Verdier was again elected President of the Alumni Chapter of the Ottawa Valley at their Annual meeting which was held recently.

It looks as if the Garnet Key Chapter will be next to be chartered. Their constitution was approved at a recent meeting of the Board of Directors.

It is hoped that the Present Financial Campaign for the University will spark further chapter development in other areas.

### FINANCIAL CAMPAIGN:

The Alumni division of the Sir George Williams University Building Fund is headed by Ted D. Lande. His Associates are: Jean desRosiers; Charles Nichols; John R. Hannan; Ernest Brown and R. G. Thompson.

As of June 11, 1964 we have received \$20,119.00 from 181 graduates. Our objective is \$150,000.00 over a five year period. As far as possible we are attempting a face-to-face campaign. Others have been contacted by direct mail. At the moment all other graduates we know of throughout the world have received a personal letter from Dr. H. F. Hall.

### ART SALE:

Plans are that an Art Sale to raise money to add to the Art Collection of the University will be held sometime in the Fall. Mrs. Henry G. Worrell is now at work with her Committee towards that end.

Respectfully submitted,

J. M. Ferguson,  
Executive Director

# Hello there!

Hello there! My name is Monique Crane — your Crane colour consultant in Montreal. I'd like to invite you to Crane's showrooms to see the decorating ideas I've worked out on Crane's dramatic '63 colours. I've co-ordinated Nile Green, Aquamarine, Desert Sand and Lavender through Crane's graceful fixtures — to wall-paper, tiling and accessories. The results are just too exciting for words. Why don't you call in and see them — and me — at 1170 Beaver Hall Square? I'd be delighted to personally colour co-ordinate a Crane fashion bathroom just for your personality and your home.

You'll enjoy shopping  
at *Simpson's*  
MONTREAL

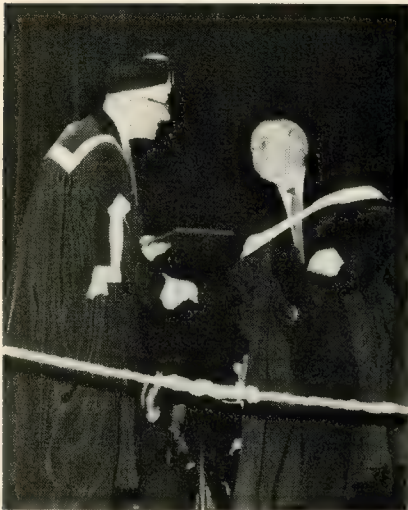

Montreal's most beautiful department store . . . where you'll find wide selections of choice merchandise from all parts of the world . . . and where courteous service adds pleasure to your shopping with complete confidence in Simpson's traditional values and guaranteed satisfaction.

**Store Hours: 9 a.m. to 5.30 p.m. Open All Day Saturday**

## SGWU GRADUATES 72-YEAR OLD

Hugh Cambell Boyd Nourse added a Bachelor of Arts degree from SGWU to the Bachelor of Science degree he received from Queen's University . . . a matter of some 50 years ago.

For Mr. Nourse is 72, and he added the BA during Sir George Williams University's convocation . . . along with 587 fellow students who also received their degree at the Grande Salle of Place des Arts.

Mr. Nourse is a graduate of Queen's University where almost to the day 50 years ago, he received a BSc in mechanical engineering. He is a retired staff supervisor of the Bell Telephone Company.

Upon graduation from Queen's at the age of 22 he worked at the Canadian-Ingersoll Rand firm for nine years before joining the Bell Company where he remained for 36 years before retiring in the spring of 1960 as staff supervisor, automotive equipment.

He began his new career at Sir George in the fall of the same year. The reason:

"I did it because I wanted to keep myself intellectually occupied and to follow some of the various interests I had," he said during an interview at his Vendôme Road home.

The subjects he took reflect his wide interests. They range through anthropology, astronomy, history of western music, history of Canadian art, American literature, French, French-Canadian literature, English-Canadian literature and geomorphology.

How did he resume studying after a break of five decades?

"I did not have great difficulties in resuming my studies," he said, "because

at work I had participated in a number of training courses which covered a wide area."

As far as examinations were concerned he was never "flurried" and he only slipped up once when he failed a course during the year "but I got it in the finals."

He had high praise for his fellow students with whom he had a "very happy relationship, for I acted my age." He found the course interesting throughout and at no time considered it drudgery.

Mr. Nourse is a life member of the Engineering Institute of Canada, a member of the Corporation of Professional Engineers of Canada, a member of the Society of Automotive Engineers in addition to being active in the YMCA.

### NEW UNIVERSITY REVIEW

The Board of Governors of the University of Windsor has announced that a grant has been made to a faculty committee to publish a magazine entitled:

*University of Windsor Review*. Professor Eugene McNamara of the English department heads the committee which plans a first edition this September. The *Review* will include general articles relating to all academic fields and will use writers outside the University as well as those on campus.

## MESSRS. FULTON & HOLLAND RE-ELECTED

Mr. Fraser F. Fulton, O.B.E., B.Sc., M.E.I.C., has been re-elected Chairman of the Board of Governors for the 1963-64 academic year. Mr. Fulton is the Vice-President, Administration, of the Northern Electric Company Limited. Lieutenant Colonel S. C. Holland, C.D., has been re-elected as Vice-Chairman of the Board for the same period. Colonel Holland is President and Managing Director of the Robert Mitchell Company Limited, and is an Honorary life member of the Association Alumni.

## G. PLOURDE JOINS SGWU COMMITTEE

Gerard Plourde, president of United Auto Parts Limited, has joined the management committee of the Sir George Williams University Building Fund, it was announced Wednesday. Mr. Plourde is a director of several Canadian corporations.

The Building Fund has passed the halfway point of its \$7,000,000 objective for the financing of the \$23,900,000 Henry F. Hall Building as of June 5.

## SGWU PLANS TO ENTER GRADUATE STUDIES FIELD

*By Alvin Johnson (from the Montreal Star)*

Sir George Williams University will enter the field of graduate studies in the 1965-66 academic year.

Work will be confined to the master's level in the first instance with doctoral programs following as "a natural extension."

The university's Academic Planning Committee said in a special report the university had reached the stage where "it would be possible and desirable" to begin graduate work in chemistry, English and fine arts.

The report said "graduate work within the university provides a focus for work at the frontiers of knowledge and by bringing together advanced students and professors helps to sharpen and stimulate intellectual activity."

A spokesman for the committee said the graduate program will be based on a decision to maintain high standards. Only a limited number of students will be admitted and emphasis will be placed on individual attention and direction.

It is also expected that the beginning of graduate work at SGWU will strengthen the undergraduate program and intellectual life at the institution.

The announcement comes against a background of academic and physical expansion which the university has been experiencing recently. Last academic year saw honors courses being offered for the first time in a number of subjects and also a number of existing courses expanded.

Physically the university is well on its way towards creation of a multi-storey plant which will greatly increase its enrolment and make possible planned academic expansion.

Work is proceeding on the site of the new Burnside building named after former principal Henry F. Hall. Pouring of concrete for the foundation is expected to begin later this week.

The building is being partly financed by a \$7,000,000 financial campaign which has been extended beyond the original May closing date. It is expected to be ready for occupancy by the fall of 1966.

## SGWU Crash Program

### STUDENTS UNDERTAKE 'DRACONIAN' FRENCH

By Alvin Johnson

The corridor on the third floor of Sir George Williams University becomes alive at 9 a.m. every day with the "bonjours" of an eager group of students.

They await the arrival of the professor and like students anywhere else they spend the time practising assignments in halting French.

A careful look however reveals that these students are not typical undergraduates. Instead what one sees is a dozen or so top administrative and faculty officers going about the job of learning French.

For three more weeks (three weeks have already gone) they will undergo an intensive course in the language under a system which instructor Albert Jordan describes as "Draconian."

"It is French with blood, sweat and tears," he said about the course his class is pursuing.

Included in the class are the principal, Robert C. Rae, the vice-principal Douglass B. Burns, deans and heads of departments.

A visit to the lab revealed that the "mature" students are adjusting to their unusual roles without much difficulty. There was a steady hum of conversation in different levels of French as the class listened to themselves and corrected their mistakes with the help of SGWU's modern electronic equipment.

"In addition to the technological approach," however Mr. Jordan said, "we also use the personal."

What he meant was that the students make full use of the microphones, tape-recorders, etc. but that he listens carefully to them and doesn't hesitate to make the small personal suggestions which are helpful in teaching.

Apparently the class arose out of a

Mr. Jordan explains the controls to Principal Rae.

demand on the part of the staff to have French lessons but it has gone beyond that. The intensive nature of the course may well result in the same offering to students in their undergraduate years.

On this score Mr. Jordan was enthusiastic.

"If this approach is successful," he said, "it could revolutionize the teaching of undergraduate French and you can imagine the type of French-speaking students we would turn out."

Although members of the special class have had prior experience in the language the instructor assumes that each person is beginning from scratch and for five hours daily for five days weekly French ceases to be "an intellectual discipline as in the high schools" and becomes a spoken language.

Asked if the present climate in the province had anything to do with the present effort Mr. Jordan ventured that separatism had created a "fertile tension in the province as far as learning French was concerned.

"There is a sense of urgency towards learning French now and this is helpful," he said.

If the project is successful Sir George Williams University may well be the only English-speaking university where the top administrative and faculty personnel is fully bilingual.

### DONALD AYRE LEAVING SGWU

Donald Ayre, director of admissions at Sir George Williams University is leaving the university to become registrar of Lakehead College, Port Arthur.

A graduate of SGWU, Mr. Ayre has been with the university since 1957 when he became assistant to the registrar. In 1961 he was appointed to the position he is now leaving.

Lakehead College began as a technical institute in 1946 and starting next year it will be able to award its own degrees as Lakehead University.

## NOTES (Continued from page 11)

received degrees. We'd like very much to hear from you.

A special vote of thanks to PROF. DONALD L. PEETS, Registrar, for his continuing support to the Alumni Building Fund Campaign.

At this writing (3:00 p.m., June 16th, 1964) we have heard from 375 Georgians for a total of \$26,382.00 towards the Building Fund for Sir George. I'm hoping sincerely that all Georgians, everywhere, will stand up and be counted. We realize that everyone is not 'loaded with dough' but we do hope that you will add your amount to all the others so that your Association will be proud when the American Alumni Council results of National Alumni Giving is published next year. In fact I've already stuck my neck out by saying that Sir George will have the highest percentage of alumni response in Canada. The amount you give, certainly, is important, but even more important is the fact that you did give.

Our very best wishes for a happy, healthy and safe summer.

Sincerely,

John Ferguson  
Executive Director

## LETTERS

Texas College of Arts and Industries  
Kingsville, Texas,  
Department of History

Feb. 27, 1964.

Dear Stanley:

... I thought you might be interested in a few tidbits of news, that might fit into some column of the "POSTGRAD".

Firstly, I was invited to deliver a paper at the Southwestern Social Science Association which meets in Dallas on the 28th of March. The topic of my paper is "Daniel Defoe and 18th Century Politics".

More important, I have been informed that the Social Science Foundation of the University of Denver has awarded me a \$2460 grant to study the political philosophy of E. H. Carr, the British political theorist and expert on Soviet affairs.

The grant extends from May 25th to Sept. 10th. My immediate plans are to spend the summer in England with occasional visits to the University of Geneva in Switzerland...

Irving Smith

## "GRATTE-CIEL" UNIVERSITAIRES A MONTREAL

Le Collège Sainte-Marie et la Sir George Williams University ont tous deux annoncé des plans inusités d'immeubles dans le centre métropolitain de Montréal.

La Sir George Williams University a dressé les plans d'un immeuble de dix étages, qui logera 11 auditoriums, 42 salles de classe, 75 laboratoires, un théâtre, un studio de télévision, un musée et une bibliothèque de 50,000 volumes. La superficie totale de l'édifice sera de 672,000 pieds carrés, ce qui est supérieur à celle de l'immeuble de la Banque canadienne du commerce de Montréal, qui compte 43 étages. Pour financer ce complexe de béton de 24 millions de dollars, la SGWU a lancé une campagne nationale de souscription dont l'objectif est de 7 millions. Le gouvernement du Québec a promis 16 millions de dollars pour la réalisation du projet et le Conseil des Arts du Canada fournira un autre million en collaboration avec d'autres organismes du gouvernement.

## A GEORGIAN REPORTS FROM THE ARCTIC

### The Bare Facts About Bear Island

By H. Gordon McFarlane, B.A. '51

(from NORTH a bi-monthly publication of the Dept. of Northern Affairs and National Research)

The north, it is said, produces the best story-tellers in the world. Among my notes is this description of Bear Island in Hudson Bay. The story comes from by Ivan Hutton, a Bell Telephone employee.

"When Henry Hudson sailed past our Island — if he ever did — he probably turned to his first mate, pulled on his beard, and said, 'There's a good place to drop that rascal Morgan: he'd cause no one trouble there'. But because he was just, he dismissed the idea from his mind and sailed on. Today the Island boasts two well-equipped bunk houses, a camp capable of supporting over a hundred people, two Arctic owls, one white fox and five men.

"There have been many rumours about 'the rock', mostly false.

"To recall a few: one couldn't land on the Island for polar bears — the great beasts wouldn't let you out of the plane. Yet to date, about 15 of the *Thalarcto maritimus* have paid a passing visit to the Island, and they were just as curious of us as we were of them. Their stay on the Island was usually about half an hour.

"The wind blows so hard they have a wire cable running from camp to sites so you can hang on and not get blown away.

"Yes, we have wind and lots of it, the average being between twenty-five and thirty M.P.H., but the highest so far recorded was gusts of up to seventy-five M.P.H.

"At first sight, the rock looks very barren, just a black hunk of flat rock four miles by one mile with the highest point about 75 feet above sea level. There are no trees, which made it necessary to send our two dogs back to the mainland. After you have had a chance to explore the Island, weather permitting, you have found an interesting pastime — things aren't as barren as you first thought.

"During July and August hundreds of different forms of plant life appear. There are flowers that would enhance the nicest

of rock-gardens: deep purple, blue, bright reds, pinks, shrubs with giant pussy willow-like flowers, and even the common daisy.

"The rock formation never ceases to amaze. The majority of the surface appears to be polished; everywhere there are long grooves that must have been cut out by a glacier centuries ago. One great crack runs straight for hundreds of feet. In summer, dozens of little lakes form from the melting snow and remain until late September. Some are red with rust from the iron deposits.

"The presence of wild rice makes our Island a stopping-off place for wild geese and ducks. The former build their nests on the rocks, and during July and early August, an afternoon walk will stir up at least a dozen of these nesters. The nests, incidentally, are out in the open where Mrs. Goose is exposed to all the elements.

"I mentioned earlier our white Arctic fox, who has been with us for over a year, and has no doubt lived on geese stuffed with rice. We have tried on various occasions to get him to come up to the site, but he prefers to do his calling at night. Our climate is somewhat different from the mainland. Last Summer our high was in the seventies for a couple of days, although on an average it was sixty.

"We have plenty of fog, but also plenty of bright sunny days. During the winter we are usually ten to fifteen degrees warmer in temperature. The Island is surrounded with ice for over seven months of the year.

"What do you do for diversion on the Island? Well, let's see — can't do any fishing to speak of — the water is too shallow. Can't do any boating — the water is too treacherous, although watching the waves break over the rocks is fascinating on windy days, when the breakers are rising up to 100 feet or so. Walking and exploring can be good, if the weather permits. Of course, the weekly mail delivery is the really big event. The seals put on a fair show once the bay freezes, but there really isn't much to do. Oh, well, maybe Winisk will send us a new pin-pong ball on the next plane, and besides, 'Scrabble' isn't such a bad game."

## COMMITTEE CHAIRMEN 1963-64

(ASSOCIATION OF ALUMNI)

Honorary Life Membership Banquet Chairman, J. G. Bradley; Fashion Show Committee Chairman, Mrs. Ruth Tunis; Art Sale Committee Chairman, Mrs. H. G. Worrell; Nominating Committee Chairman, G. B. Miller; Citations and Awards Committee Chairman, C. Brown; Building Fund Campaign Chairman, T. D. Lande; Representatives to the Board of Governors, C. F. Stannard, J. G. Bradley; Representatives to the Athletic Council, L. Nachshen, Edward Heft; Grad Reception Committee Chairman, R. Gariepy; Student Loan Committee Chairman, G. Mullen; K. E. ## GEORGIAN APPOINTED LAKE FOREST COLLEGE

Dr. Gordon D. Spies has been appointed assistant professor of psychology at Lake Forest College, it was announced by William L. Dunn, Provost and Dean of Faculty.

Dr. Spies will join the faculty this summer and will direct a new physiological laboratory in neuro-psychology. It will be used for student research in the role of the brain in the determination of behavior.

A graduate of Sir George Williams University in Montreal, Canada, Dr. Spies received the M.A. (1962) and Ph.D. (1964) from Cornell University. He also studied at the University of Oslo, Norway in 1949-50.

He received a National Institutes of Health-Public Health Service pre-doctoral fellowship while at Cornell. His thesis on "Food versus intracranial self-stimulation reinforcement in food-deprived rats" was presented to the Eastern Psychological Association at Philadelphia in April, 1964.

Dr. Spies is married to the former Olga Birgitte Harnes of Oslo, Norway.

### PROF. LERMER TV PANELIST

On Sunday, June 7 at 1 p.m., CFCF-TV's Forum examined "The Student as a Force in Political Life." Moderator for the program was The Gazette's Bernard Dube. Mr. Dube's panel consisted of Prof. Charles Taylor, a lecturer at McGill and the University of Montreal; Prof. A. Lerner of Sir George Williams University;

Jean David of La Presse and Michel Beaulieu, editor of the University of Montreal newspaper, Le Quartier Latin.

### SGWU Computer Versatile

## IBM 'BRAIN' IS JUST TIC-TAC-TOO MUCH

*By Alvin Johnson of the Montreal Star*

The IBM 1620 computing machine at Sir George Williams University does everything from marking papers to playing tic-tac-toe.

When it is in a pleasant mood it entertains with Christmas carols but with a flick of a switch it can become an uncompromising foe at tic-tac-toe.

The university acquired the machine last August and it has been used so far mainly "for educating students," as the director of the computing centre, Graham Martin, puts it.

He said that the machine is operated by the faculty of engineering and that it is mainly used by third year engineering and senior science students. Plans are under way to expand the computing program so that all students will gain experience with the machine at some time in their careers.

## **MESSAGE FROM THE MINISTER OF EDUCATION**

**Maximum development of our resources, human and material**

The policies that the Government of Québec has undertaken in many and various fields of endeavour can all be grouped under one slogan: maximum development of our resources, human and material.

These policies of development, it is clear in the mind of the government, are to be carried out fully within the setting of the Canadian Confederation: a dynamic Québec in a dynamic Canada.

I believe, however, that the text of the constitution and the actual functioning of our federal system can and must be adjusted to new social and economic realities.

In this new Québec which we are in the process of making, the Cité des Jeunes de Vaudreuil appears as a significant project.

This educational complex is unique in two ways. First, it includes schools and trainings which are the first of their type not only in Québec, but in many respects, in the whole of Canada.

This Cité des Jeunes is also unique in a second and most important respect. It is intended both to serve as a regional cultural center for the adult population and as an integrated high school and technical school complex, offering to our youth, on a single campus, the widest range of educational options required to allow students to choose the type of education and training most suited to their abilities.

## SGWU LISTS PROMOTIONS

Magnus Flynn, an assistant dean at Sir George Williams University since 1956, has been appointed dean of students of the university.

Dean Flynn is a graduate of SGWU where he had a very active career as a student. He was president of the Student's Undergraduate Society in 1947-48-49.

In 1952 he joined the staff as director of athletics and coached the university basketball team from 1950 to 1962. He was also a founder of the Ottawa-St. Lawrence Intercollegiate Athletic Association. At

present he is chairman of the student affairs division of the University Counselling and Placement Association and a member of the National Association of Student Personnel Administrators and of the Evening Student Personnel Association.

Other promotions announced by the university were Miss Mona Osborne to be assistant to the registrar, Tom Swift to be assistant director of admissions, Ron McCarthy to be assistant to the registrar and F. W. Denton to be assistant director, guidance and services.

Barbara was a member of the Grad Class Exec. and was chairman of the Banquet.

**COOKE TO BOLSTER  
SGWU ART STUDIES**

The growing fine arts department at Sir George Williams University has acquired the services of leading art expert Edwy F. Cooke.

At present curator of the Beaverbrook Art Gallery in Fredericton, Professor Cooke will join the department as an associate professor in September to teach the history of art, among other subjects.

Professor Cooke's appointment to SGWU is viewed as part of the expansion which the department now is experiencing

in theoretical as well as practical accomplishments.

Early in 1963 the foundation of a permanent art collection at the university was laid when six works by Canadian artists, and Eskimo carvings, were unveiled. Since then the collection has increased rapidly and now consists of nearly 100 paintings, four pieces of contemporary Canadian sculpture and 18 pre-Columbian, African and oceanic objets d'art.

In discussing the department of fine arts and the part to be played by Professor Cooke, Assistant professor Leah Sherman said that the university was very "sympathetic" to art and was very interested in building up its history of art courses.

"It is our aim," she said, "to integrate theory and practice."

Professor Cooke brings to his new job an impressive background not only as practising artist but also as teacher and scholar of art.

He is a graduate of the Art and Archeology School of the University of Toronto

and did post-graduate work at the University of Iowa. He returned to the University of Toronto in 1962 to teach the history of art and drawing and painting.

He moved to Fredericton in 1959 where he was appointed curator of the Beaverbrook Art Gallery and also head of the department of Fine Arts at the University of New Brunswick.

In an interview he indicated that he would be teaching courses in the history of art with particular reference to modern art and Canadian art.

He referred to the plans which are under

way to "make art a part of the surroundings" in the new 10-storey building which the university at present is constructing on Burnside street.

The plans call for two exhibition halls in the building with one used for changing exhibitions to which the public will be invited, while the other will house the university's permanent collection.

According to Professor Sherman the thinking behind the plans is that students will come to "live with art as part of the environment and not think of it in

*(Continued on page 33, column 3)*

## COMPUTER *(Continued from page 24)*

The new 10-storey building at Burnside will have a large computing centre and a bigger machine than the present one has already been ordered.

The machine is used for 200 hours per month and nearly 70 per cent of this time is devoted to the work of students. During the last academic year there were some 120 students enrolled in the computer program.

The machine also marks laboratory results from physics courses in addition to making calculations for the guidance office after registration tests are made.

### THOMAS O. HECHT A BIOGRAPHICAL NOTE

Born in Brno, Czechoslovakia in 1929, came to Canada in 1942..

College and university — Sir George Williams, McGill and European universities.

Field of specialization — Political Science. Lecturer in Political Science at Sir George Williams for nine years.

As student active at Sir George Williams as an SUS executive; president of Political Science Group; president of the Liberal Club.

Business Activities: President of Im-muno (Canada) Ltd., Vice-President of Continental Pharma (Canada) Limited, pioneers in worldwide introduction and distribution of Canadian-manufactured vaccines.

Proficient in six languages; worldwide travel including a recent trip to Moscow and capitals of Eastern European countries.

Communal activities: Associate-Chairman Combined Jewish Appeal. 1964. Executive of Leadership Development Committee of Federation of Jewish Community Services. Life Governor of The Jewish General Hospital. Treasurer Herzl Health Centre. Member of Board of Directors of the Alumni Association of Sir George Williams University. Chairman of Special Names Committee.

## Student Employment Challenge GRADS FACE BILINGUALISM CALL

By Alvin JOHNSON  
(from the Montreal Star)

The employment demand this year for graduating students who are bilingual is greater than ever.

"There is so much demand for bilingual graduates for permanent positions that we can't fill all the openings," W. A. Campbell, National Employment Service Supervisor at Sir George Williams University declared.

He was discussing employment prospects when he pointed to the "dominating change" which has taken place in the hiring of students.

Mr. Campbell has been with the NES student placement office for a number of years and he says that "it is becoming more and more necessary for students to be bilingual."

"I have seen many changes in my experience," he said, "but this is the most dominating change so far."

He said the situation this summer for students jobs will be "about the same as last year."

"The situation started to deteriorate about five years ago and it has held this way since," he said.

He said that over the years the number of jobs has remained the same while the student population had grown.

Mr. Campbell's statement on summer employment came against a background of increasing difficulties in obtaining summer jobs.

A cross-country survey by Loyola College recently revealed that the employment situation had deteriorated. The check of some 12 Canadian universities and colleges led to the conclusion that summer employment for students "may soon be something of the past."

One result of a lack of summer employment is that the student has to seek employment during the school year to help with expenses.

Sir George's students' dean Magnus Flynn says: "The student's academic work suffers when he has to seek part-time employment during the academic year. The good student becomes marginal and the marginal student fails."

He said that there were a number of ways in which the university helps in financial difficulties. One method is through an emergency loan fund which day and evening students themselves instituted.

(Continued on page 34, column 1)

## COOKE TO BOLSTER

(Continued from page 31)

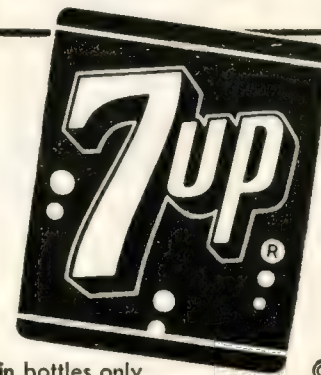

isolation," and she added that professor Cooke's appointment will help to promote this idea.

Professor Cooke has had regular exhibitions of his work in Canada and abroad and his paintings hang in a number of public and private collections.

Let's face it...

*Nothing  
does it  
like  
Seven-Up!*

in bottles only

## STUDENT EMPLOYMENT

(Continued from page 33)

Lizzie Lammens, assistant supervisor of the National Employment Service's placement office at Sir George Williams University, interviews a student seeking summer employment. The office has been operating at the university on a full time basis for the last 12 years. Its officers are employees of the federal government.

This year some 691 male students and 157 female students are registered at the SGWU placement office for summer, part-time and permanent employment.

The office has been operating at the university on a full time basis for the last 12 years and it is staffed by two officers who are employees of the Federal Government.

It provides facilities for employers to visit the campus to interview students about career opportunities and, according to Mr. Campbell, it serves about "1,000 regular customers."

Help put SGWU's Building Campaign over the top—GIVE towards the construction of the Henry F. Hall building. For details call John Ferguson at VI 4-0131.
